| 23. Problem: (use additional Sheets if necessary) The 920-TDX-018 document series (host memory) contains information which is also documented in the 920-TDX-001 (hardware diagram) document series. |  |              |                         |                         |  |                 |                            |                               |            |  |
| Maintaining this information in two documents is redundant.  |  |              |                         |                         |  |                 |                            |                               |            |  |
| 24. Proposed Solution: (use additional sheets if necessary)  |  |              |                         |                         |  |                 |                            |                               |            |  |
| Retire the 920-TDX-018 document series.  |  |              |                         |                         |  |                 |                            |                               |            |  |
|  |  |              |                         |                         |  |                 |                            |                               |            |  |
| 25. Alternate Solution: (use additional sheets if necessary)   |  |              |                         |                         |  |                 |                            |                               |            |  |
| 26. Consequences if Change(s) are not approved: (use additional sheets if necessary)   |  |              |                         |                         |  |                 |                            |                               |            |  |
|  |  |              |                         |                         |  |                 |                            |                               |            |  |
| 27. Justification for Emergency (If Block 15 is "Emergency"):  |  |              |                         |                         |  |                 |                            |                               |            |  |
|  |  |              |                         |                         |  |                 |                            |                               |            |  |
